Thank you for purchasing the **PIGEONs** asset!

May you create wonderful interactive experiences with it!

How to setup assets for URP or HDRP:

1. Locate the **PIGEONs-URP (or -HDRP).unitypackage**
   under Assets folder

2. Double click it

3. Click on **Import**

4. After the import completed:

   - SRP specific Demo Scenes & Terrains will be included
   - your **Materials** and **Prefabs** will be updated to specific RP

Best regards,
Attila Zöld

GREENWORKS

When you have 3 minutes to spare, please consider **WRITING A REVIEW** for it on the store.

Why?

-valuable feedback for devs
-communicate your demands
-improving future supplies
-reviewed products = prioritized in store

You can (honestly) write about:

- Met your requirements?
  If not, please tell us what did you expect.

- What did you like most?

- What bothered you most?
